NOURISHING EARTH AND BODY: EMBRACING A GREENER TOMORROW

From the lush rice terraces of Ubud to the shimmering sands of Uluwatu, Bali's charm transcends physical beauty. One of its beacons of sustainability is Bali Buda, a health food store and organic café that's become a vital hub of the island's green living movement. Established in 1994, Bali Buda has been actively promoting sustainable practices in various ways. Let's dive into our philosophy of eco-responsibility and discover how we are trailblazing a green path for others to follow.

ORGANIC & LOCAL PRODUCE

Bali Buda's commitment to sustainability begins with our menu, which is mostly crafted on locally sourced and organic ingredients. The endeavor to serve healthy and nutritious food has led us to establish strong partnerships with local farmers. By opting for organic farming methods, implementing the use of natural pesticides and fertilizers, these preserve soil health and biodiversity while contributing to a more balanced ecosystem.

ZERO WASTE

A central tenet of Bali Buda's sustainability strategy is our minimal waste policy. We view waste as a misallocation of resources, and as such, we strive to minimize it at every opportunity. Leftover food doesn't find its way into the trash; instead, it's composted or donated to local farmers. All food packaging is biodegradable or recyclable, made from simple materials like paper, glass, banana leaves and reusable and recyclable plastic. Customers are welcome to bring their containers for take-away orders. Even our delivery is conducted on electric scooters, cutting down carbon emissions. See our full article on Zero Waste page 2.

ECO-FRIENDLY PACKAGING

Bali Buda has reimagined the concept of packaging in its bid for sustainability. We were the first to replace plastic bags, instead using cloth bags and bags made from recycled newspaper for our products, and banana leaves instead of plastic containers for take-away. We stopped selling plastic bottled water and offer water refill stations at each outlet. And we have chosen to use high-grade reusable and recyclable pouches instead of more attractive packaging that does not have any recycling value.

These small yet impactful measures ensure that even the most mundane aspects of our operation are in line with our mission to protect the environment.

COMMUNITY EMPOWERMENT

Bali Buda's sustainability drive extends beyond the confines of our café and reaches deep into the community. We have always empowered local farmers and artisans by offering a marketplace for their goods in our stores. It creates a ripple effect – boosts the local economy, preserves traditional methods of farming and craftsmanship, and reduces the carbon footprint associated with long-distance transportation of goods.

EDUCATION & AWARENESS

Bali Buda recognizes the power of knowledge and uses it as a tool to inspire sustainable practices within the community. We regularly support workshops and events focused on environmental awareness, teaching about permaculture, composting, recycling, and healthy eating.

SUSTAINABLE SUPPLY CHAIN

From the field to the fork, Bali Buda is dedicated to ensuring that every step of our supply chain is as sustainable as possible. We take great care in selecting and educating our suppliers, preferring to partner with those who share our ethos of environmental stewardship.

WATER CONSERVATION

Bali, like many tropical islands, faces significant challenges with water conservation. Bali Buda has taken decisive action to address this and has been a main supporter of Bali Water Project since April 2013, program aiming to improve community resilience against water shortages caused by climate change and excess use of water from uncontrolled tourism industry.

In conclusion, Bali Buda is not just a café, a bakery, or a health food store; it's a beacon of sustainability and the heart of Bali's organic revolution, underlining the positive impact businesses can have when they make eco-consciousness a core part of their ethos. As customers, YOU are part of this green journey too, by choosing to support businesses that care for our planet. With each healthy meal served, every workshop conducted, and each delivery using eco-friendly packaging, Bali Buda reminds you that sustainability is not a distant ideal, but a lifestyle choice that we can all embrace for a greener tomorrow.

BALI BUDA SUPPORTING ZERO WASTE

Zero Waste is not only selling bulk and recycling plastic! At Bali Buda, we think of it at each and every step of our operations.

Here are all the actions and decisions we have taken throughout the years to protect the Earth:

- In our cafes, we only use glass straws, and we are still the only ones packing your drinks in glass jars for take-aways and GoFood deliveries.
- Our packaging is not fancy nor pretty, precisely because it is recyclable and compostable in Bali: Newspaper bags, simple carton boxes, craft paper, banana leaves.
- We offer unbleached reusable cotton bags for free above 300K purchase and upcycled newspaper bags for free.
- We aim for minimal waste in all our food production: Any leftover is composted or used to feed our animals and used cooking oils (UCO) are donated to Lengis Hijau, a local non-profit, for being reused as biofuel, bio soap and candles.
- We develop products to avoid wastage: our skinny vanilla and chocolate custards are made from coconut pulp leftover after we extract our coconut water to bottle it.
- We sell many alternatives to single-use products in our stores: Cloth menstrual pads, bamboo utensils, washable nappies, glass straws and more. We also try selling as many products as we can in bulk.
- You can bring back all packaging you bought from us, we will dispose and recycle them through our partner Eco-Bali. That includes glass bottles and jars that we buy back from you!

ZERO WASTE PROGRAM

CHAPTER 01 TURN BACK TRASH

Please don't throw away your Bali Buda packaging, bring them back to us to be recycled instead. Unless you're already recycling them, good on you! We do not accept anything other than recycleable Bali Buda packaging. **Get cashback for returning our glass jars and bottles!**

CHAPTER 02 BRING YOUR OWN BAG

Since January 2018, we've stopped providing plastic bags for our customers and encourage you to bring your own, or purchase one of ours. **Shop over Rp 300,000 and we'll give you an earth-friendly Bali Buda bag for FREE!**

CHAPTER 03 ZERO WASTE

Start replacing your household cleaning products and tools for eco-friendly and natural preservatives. Check out our store for eco-friendly and minimal waste products!

CHAPTER 04 SHOP FROM BULK DISPENSERS

We have introduced bulk options in all of our shops since 2015. Buy what you need in any amount. To minimize waste, **bring your own containers or you can purchase reusable ones in our store.**

YOU ALSO HAVE A VITAL ROLE TO PLAY IN REDUCING WASTE. HERE ARE SOME TIPS TO GET STARTED:

Don't order or buy more food than you will use or eat. Roughly a third of all food in the world is wasted – and is one of the top reasons for human-driven climate change.

Always bring your own containers and bags when you're shopping.

Support locally grown organic markets and sellers.

Avoid single-use disposable products. Always carry your own water bottle, reusable straw and utensils, especially when eating out or getting delivery.

Recycle.

ALL DAY BREAKFAST

- DELICIOUS HOT OATMEAL 

48

rolled oats cooked with a side of fresh coconut milk, Bali Buda's wraps, date and local kenari nut topping and a side of palm syrup.
- BANANA PASSION FRUIT STACK

- hormonal
- energizing
- brain booster
- calming & relaxing
- skinny & detox
- green & jasmine
- lemongrass & ginger

KEEPING IT REAL.

All baked goods and foods at Bali Buda are homemade everyday, no big equipment involved.

We never use MSG. We only use free-range natural eggs.

Our chicken is free-range and organically grown, hormone-free and free of antibiotics.

We only use coconut oil in our cooking and food processes, we avoid all products containing palm oil.

We go the extra mile to serve produce, gains and proteins as chemical-free and non-GMO as possible.

We love and support both slow food and slow life concepts.

We are members of Slow Food Ubud and Slow Food International.

We support organic agriculture and sustainable living initiatives in Bali.

We practice principles of Fair Trade.

Bali Buda is proud to buy our rice and produce by LeSOS certified farms. LeSOS started from an initiative of organic farmers in the districts of Trawas, Pacet and Ngoro in East Java. They are farmers who have carried out and developed organic farming cultivation since 1994 with the assistance of Seloliman Environmental Education Center (PPLH Seloliman). At first, they marketed their products only on the basis of trust between consumers and producers. In November 2007, LeSOS received an official certificate from the Organic Food Competent Authority (OKPO). OKPO is one of the technical teams from the Directorate General of Processing and Marketing of Agricultural Products under the umbrella of the Minister of Agriculture of the Republic of Indonesia. Based on this mandate, LeSOS is one of the first certification bodies in Indonesia with the right to investigate, issue certificates and organic labels for various organic products, farmers and farmer groups, cooperatives, companies, and others that have met their strict requirements for following organic practices.

LOCAL & NATURAL

We do our best to serve organically farmed and GMO-free food. The farms we buy our produce from have been under the supervision of BOA (Bali Organic Association) for the past 10 years. Our produce is grown as organically and chemical-free as possible. Besides being overseen by BOA, we periodically spot check the farms ourselves and conduct spontaneous random lab testing on the produce without prior supplier knowledge.

SLOW FOOD IS GOOD, CLEAN AND FAIR

Slow Food’s approach to agriculture, food production and gastronomy is based on a concept of food quality defined by three interconnecting principles: good, clean and fair! The word good can mean a lot of things to a lot of people. For Slow Food, the idea of good means enjoying delicious food created with care from healthy plants and animals. The pleasures of good food can also help to build community and celebrate culture and regional diversity. When we talk about clean food, we are talking about nutritious food that is as good for the planet as it is for our bodies. It is grown and harvested with methods that have a positive impact on our local ecosystems and promotes biodiversity. We believe that food is a universal right. Food that is fair should be accessible to all, regardless of income, and produced by people who are treated with dignity and justly compensated for their labor.

"Let people then consider their food:
how We pour down rain in abundance
and meticulously split the earth open
for sprouts causing grain to grow in it,
as well as grapes and greens, and olives
and palm trees, and dense orchards,
and fruit and fodder - all as a means of
sustenance for you and your animals."

Surah Abasa 80:24-32
The Noble Qur'an

RESPONSIBLE WASTE MANAGEMENT AND SUSTAINABLE LIFESTYLE IN THE ISLAND OF BALI

We provide waste collection and recycling to suit your school, home, or business needs.

We offer easy home composting system for your kitchen scraps at home
